## Report

3) Name of Activity: Competition of Ecofriendly Ganesh Decoration for all Shirol taluka Villages..

Day & Date: 31<sup>st</sup> August to 6<sup>th</sup> September, 2022.

Ganesh Chaturthi was celebrated all over India. Every year the festival starts and ends with great pomp and fun. The festival was celebrated for a period of 10 days. Ganesh idols are immersed into rivers or lakes. With the passion of celebrating this festival, we generally forget the hazardous impact of the immersion of idols on environment. The idol of Ganesh is generally made up of clay, Plaster of Paris (POP), plastic and cement. Toxic paints are also used in decorating the idol. After the immersion, the ingredients of the idols does not completely dissolve in water which then leads to environmental pollution.

In addition to this, these idols are often colored with bright paints that contain heavy metals such as lead, nickel, cadmium, and mercury. These heavy metals can affect the PH balance of the water, making it more acidic and thus further poisoning its inhabitants. Additionally, these materials can cause skin diseases in humans when they come into contact with the water, as well as poisoning us through the fish and birds eaten as food. That's why we NSS unit conducted competition for celebration of Ecofriendly Ganesh decoration competition for awareness of Environmental Protection.

NSS unit & college authority appointed the following faculties as judges, to select the first 3 winners of this competition.

Initially, the CEO of Nandani Cooperative Bank informed the NSS volunteers about his bank and online transactions. During the lectures of Prajakta Patil mam, said to the NSS volunteers on 'Success' is a very powerful word. Many of us run behind it; most of us want to conquer it. So, what is success all about? Does this mean acquiring money or fame? Success means different things to different people etc. Also in her lecture, she gave many examples of successful life also she gave guidance on how to succeed in the success and failure competition. Also in her

speech, she told many stories of success vary from person to person. Similarly, the things people do for being successful also differ. But when we cross-analyse all the stories of successful personalities, we can figure out the existence of some key rules that all of them have followed. Note these key points, apply them in your lives and start your voyage for getting the treasure of success.

At last she gave the following message for royal success to students and resolved the student's doubts.

- Be the best. Always try to bring out the best from you.
- Work hard, Never give up easily on the efforts that you are taking to reach your goals.

#### Plastic Free India Street Play:

India's ban on select single-use plastic items comes into effect from July 1, 2022. Although this is the country's first attempt to regulate plastics available in the market, it will send out the wrong message if we say "India is banning single-use plastic".

This is because even after July 1, the Indian market will continue to sell a gamut of single-use plastic items like soft drinks and mineral water bottles, all products sold in multi-layered packaging, among others. These plastic items perfectly fit the bill for single-use plastic going by the definition India has adopted.

India defined single-use plastic in an August 12, 2021 notification as "plastic item intended to be used once for the same purpose before being disposed of or recycled"

To make people aware of the ill-effects of plastic, the NSS volunteers of our college has started organizing street plays to spread the message of "say no to single-use plastic".

We organized a street play at Nandani village on the theme "Environmental Protection and Plastic Ban" on 3<sup>rd</sup> February, 2023. Many volunteers participated in the street play with an objective to create awareness amongst the public, the importance of greenery and planting more trees in order to reduce environmental pollution for the survival of animals and mankind. They also highlighted the effects of usage of plastic bags to the public. Street Play was followed by the

distribution of Eco friendly easily biodegradable paper hugs prepared by NSS students to the nearby medical shops.
