Name of Activity: One Day Cleaning Campaign at Mouje Nandani Tal Shirol

Date: 7th January, 2023

Dr.J.J.Magdum college of Engineering, Jaysingpur organized a one day NSS Cleanliness cum Social Awareness Camp on 7th January, 2023 at Nandani village Tal-Shirol . Total 100 NSS volunteers and 6 faculty members were participated in this cleaning camp. Rashtriya Swachhta Diwas with an aim to fulfil the dream of Clean India as envisaged by Mahatma Gandhiji. Our government has described it as one of the biggest people's movement. The cleanliness drive started by 08:40 am. All the faculty members and volunteers were gathered in the ground of Nandani high school. Prof.P.A.Chougule (NSS, Programe Officer, NSS-Unit) who led this activity, distributed areas of work & explained duties of the cleanliness to all.

Volunteers divided themselves in three teams and target the areas within the school premises for executing the cleanliness drive. One team removed the weeds and killed the grass from main area of village. They managed to make it clean & attractive as well. Second team selected the empty places alongside the playground and backyard to plant saplings in a well-organized way.

Faculty members also got involved in this cleanliness drive. They guided the students and simultaneously explained the importance of "Swachh Bharat Abhiyan" as well. Other team visited the classrooms during the break time and motivate the youngster's for having the better sanitation practices, like using a toilet, hand washing, maintaining the health and hygiene, cleaning of streets, their schools, houses & temples.

After the successful execution of the activity, all assembled near the Headmaster Office. Refreshment and tea. Program office Prof.P.A.Chougule told that our students have taken this initiative to lighten up all about cleanliness and its significant aspects in our life. He explained the long-term vision of the college-village collaboration in view of making strong intervention required for the village betterment and development. It is one of the most important practices for a clean and healthy environment. Moreover, it is both public hygiene and personal hygiene. The term cleanliness implies the absence of dust, dirt, garbage or waste, foul smell, stains, etc. It is essential for us to learn about cleanliness, hygiene and sanitation and the various diseases that are caused due to poor maintenance of hygiene conditions. It must be followed by every human as it is vital to all. Also, he said that this camp was all about to aware the youth for cleanliness of an individual, its surroundings and the nation. By relating social awareness need for students, this camp itself for a great stimulation as cleanliness is first stride towards healthy life.

Last but not least, the NSS Asst-program officer Dr.A.M.More reminded the NSS volunteers about the importance of cleanliness. Finally, NSS Student Head Mallikarjun thanked everyone and announced that the event was over.

Chairman of Dr. J.J. Magdum Trust, Dr. Vijayraj Magdum, Vice-Chairman Adv. Sonali Magdum, Campus Director of the College, Dr. Sunil Admuthe, Principal of the College, Dr. Shubhangi Patil, Dean Students of the College Prof. P.P. Name of Activity: Competition of Ecofriendly Ganesh Decoration for all Shirol taluka Villages..

Day & Date: 31st August to 6th September, 2022.

Ganesh Chaturthi was celebrated all over India. Every year the festival starts and ends with great pomp and fun. The festival was celebrated for a period of 10 days. Ganesh idols are immersed into rivers or lakes. With the passion of celebrating this festival, we generally forget the hazardous impact of the immersion of idols on environment. The idol of Ganesh is generally made up of clay, Plaster of Paris (POP), plastic and cement. Toxic paints are also used in decorating the idol. After the immersion, the ingredients of the idols does not completely dissolve in water which then leads to environmental pollution.

In addition to this, these idols are often colored with bright paints that contain heavy metals such as lead, nickel, cadmium, and mercury. These heavy metals can affect the PH balance of the water; making it more acidic and thus further poisoning its inhabitants. Additionally, these materials can cause skin diseases in humans when they come into contact with the water, as well as poisoning us through the fish and birds eaten as food. That's why we NSS unit conducted competition for celebration of Ecofriendly Ganesh decoration competition for awareness of Environmental Protection.

NSS unit & college authority appointed the following faculties as judges, to select the first 3 winners of this competition.
