* A candidate is considered qualified if the marks secured are greater than or equal to the qualifying marks mentioned for the category for which valid category certificate, if applicable, is produced along with this score card.

General Information

GATE 2023 score is calculated using the formula

$$\text{GATE Score} = S_p + (S_q - S_p) \frac{(M - M_q)}{(M_c - M_q)}$$

S_p marks obtained by the candidate in the paper, mentioned on this GATE 2023 scorecard
 S_q is the qualifying marks for general category candidate in the paper
 M is the mean of marks of top 0.1% or top 10 (whichever is larger) of the candidates who appeared in the paper (in case of multi-papers including all sections)
 M_c is the score assigned to M_c
 M_q is the score assigned to M_q

GATE 2023 score formula, M_c is 25 marks (out of 100) or $\mu + \sigma$, whichever is greater. Here μ is the mean and σ is the standard deviation of marks of all the candidates who appeared in the paper.

Ranking in GATE 2023 does not guarantee either an admission to a post graduate program or a scholarship/assistantship. Eligible institutes may conduct further tests and interviews for final selection.

Geology and Geophysics (GG) Humanities and Social Sciences (H)	Separate score and ranking provided based on selection of optional section
Architecture and Planning (AR) Agriculture Engineering (AE) Engineering Sciences (XE) Life Sciences (XL)	NO Separate score and ranking provided based on selection of optional section

GATE Aptitude Test in Engineering (GATE) 2023 was organized by Indian Institute of Technology Kharagpur on behalf of the National Coordination Board (NCB) - GATE for the Department of Higher Education, Ministry of Education (MoE), Government of India.

Learning at UNSW from 2023

A vibrant student experience is central to UNSW. With many constraints of the COVID-19 pandemic behind us, we continue to move forward at our campuses with many of our spaces enhanced or refreshed over the last two years. From Term 2 2023 we plan to return to in-person teaching for courses that are best delivered in that mode. This means from Term 2 2023 some courses will no longer offer fully online options. However, an online/hybrid delivery mode may still be a planned aspect of your course or program and in those cases this delivery mode will remain available. Please read our [FAQs](#) for more information.

This merit-based award expects that you will maintain a 3.0 average each semester. This award will be withdrawn if you do not maintain this minimum average.

You are expected to comply with all the rules and regulations governing students at Clarkson University and your scholarship may be altered if you are transferring credits toward your Clarkson degree. Please note that the scholarship will be computed and disbursed to your account each semester in proportion with the number of credits in which you are enrolled in.

Additional Information

The 36 credit hour on campus Applied Data Science MS Program can be completed in three different study lasting one or one and half years. Regardless of your personal plan of study, our policy is to provide international students that are admitted into the program with I-20 documentation corresponding to their plan of study, giving them maximum flexibility with respect to the choice of the length of the program completion. Ultimately the decision of which plan of study to adopt will be made after a discussion with an advisor, which will include your academic and professional goals.

Please note: Before you will be activated in a Clarkson graduate program, your bachelor's degree must be completed. A final/official transcript must be sent for your file, if it has not been already. There are two ways for providing your official transcript, either (1) as a hardcopy document mailed from the issuing institution, (2) an electronic transcript provided by the issuing institution through a secure download, such as a transcript service.

Please feel free to contact us if you have any questions. We look forward to you joining Clarkson's great Applied Data Science, MS program!

Sincerely,

Michelle Crimi
