Grade Table

Calculation of Student Performance

1. Semester Grade Point Average (SGPA): It is the weighted average of grade point obtained in all the courses registered in the semester.

$$SGPA = \frac{\sum C_i \times G_i}{\sum C_i}$$

2. Cumulative Grade Point Average (CGPA): It is the weighted average of grade points obtained in all the courses registered since beginning of the semester of the programme till the end of current semester.

$$CGPA = \frac{\sum C_j \times S_j}{\sum C_j}$$

Where,

C_j : Number of Credits of jth course; G_j : Grade points earned in jth course; S_j : SGPA of jth semester.

3. All the above calculations are rounded to two decimal places.
